

GEAK Gear Pump

GEAK gear pump

Description

GEAK pumps are selfpriming gear pumps for horizontal installation (optional vertical installation). On request GEAK pumps are available with a internal safety valve. The advanced modular design reduces the number of parts whilst maximising interchangeability.

Applications

GEAK pumps meet the requirements of many applications, as:

- Lub Oil Pump
- Fuel Oil Pump
- Hydraulic Oil Pump
- and many others...

Material

Casing	Cast iron
Gears	Steel
Shaft	Steel
Shaft sealing	Radial shaft seal or mech. Seal

Technical Data

Capacity	max. 65 m ³ /h
Pressure	max. 25 bar
Speed	max. 1800 1/min
Temperature	max. 95° C (optional 200)
Pressure rating	max. 30 bar

Description:

GEAK pumps are self-priming gear pumps for horizontal installation (optional vertical installation). On request GEAK pumps are available with an internal safety valve. The advanced modular design reduces the number of parts whilst maximizing interchangeability.

Applications:

GEAK pumps meet the requirements of many applications, as;

Lub Oil Pump

Fuel Oil Pump

Hydraulic OH Pump

and many others...

Material:

Casing Cast iron

Gears Steel

Shaft Steel

Shaft sealing Radial shaft seal or mech. Seal

Technical Data:

Capacity: max. 65 m³/h

Pressure: max. 25 bar
